RE: LOI for SBLC & Monetization

Counting on your availability and financing expertise, we are looking to develop our 25,000 acres' land located in Mendocino, California USA. Our strategies and plans for the development consist of construction of many projects which costs more than two-billion, \$2,000,000,000.00 US dollars.

In the quest of a suited financial partner with the best conditions, we are interested in your participation to satisfy these points above. Please keep in mind, first and foremost, this is a 20 year strategic HUMANITARIAN project, YOU ARE INVESTING IN CHIEF GERONIMO XVIII, a direct descendent and heir of Apache Chief Cochise and Apache War Chief Geronimo.. This engagement is not solely about the pitch decks or the proforma's or the ROI's, this is about all of humanity and doing what is the right thing to do for our people. This is a global initiative that includes water remediation, clean energy, agriculture and a first of its kind botanical pharmaceutical health and wellness initiative to reverse most all disease including cancer.

The strategic plan is a one million job campaign. This will be the first steps in enjoying those services.

**OFFICE OF CHIEF HEAD - TRIBAL GOVERNMENT Chief Geronimo XVIII**  
**OMB-2700-0042 GSA-ERRC EFFECTIVE DATE 12|16|2016**

RE; LOI for SBLC & Monetization

The general terms and conditions for this deal maturity date should be one years one day with the chance to renew or extend its maturity date to a typical period of time.

Blessings and Ha-ta-hey,

Chief Geronimo XVIII

- Funds are in a top ten bank and do not move for duration
- Funds remain in owners name
- Account is pinged by trader on an as needed basis
- If account below agreed amount of \$50M the trade is automatically terminated at that point

**4 Platform Assets**

Amount in Account Frozen for the purpose of trade

Funds scheduled for five years in platform

**5 Platform Assets Returned**

Release of funds milestone

**6 Trade Revenues 5 yrs**

Total expected trade revenues in over 5 years.

Payments scheduled are monthly but may be bi-weekly per trader

5% Commission to intermediaries as noted in contracts

20% Return monthly to Investor Group

**190 Project Allocations**

Allocation of funds towards humanitarian projects equals income less commissions as described above.

Project Management over 5 years for all ATN Projects to be managed

**252 ATN**

Agency Tribal Nations Projects to be funded from Returns of Platform

Multiple Projects

Multiple Tribes

**266 Tribal Projects**

Tribal Projects to be allocated funds

**273 Flip City**

Flip City Project with separate pitch deck and budgets submitted

# Introduction

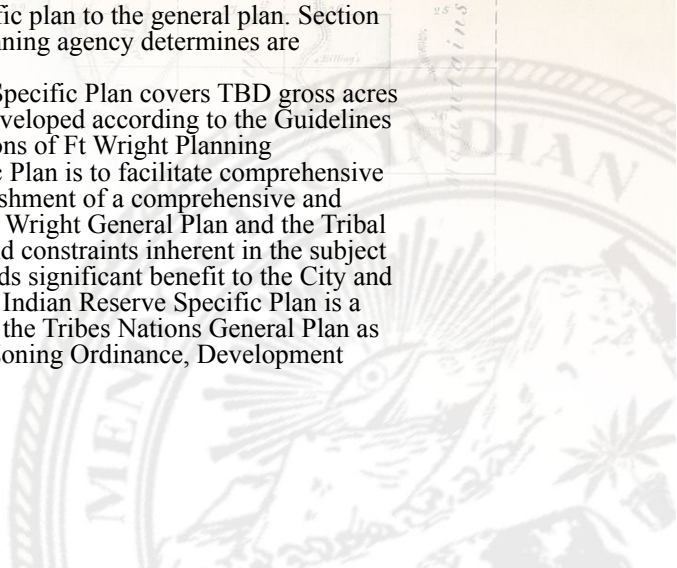

*Rec'd with Sec. General's letter of May 11, 1869*

2.1 Regulatory Authority Tribal Government provides authority to cities to prepare Specific Plans for the systematic implementation of the General Plan for the following: A.

A specific plan shall include a text and a diagram or diagrams which specify all of the following in detail: a. The distribution, location, and extent of the uses of land, including open space within the area covered by the plan. b. The proposed distribution, location, extent and intensity of major components of public and private transportation, sewage, water, drainage, solid waste disposal, energy, and other essential facilities proposed to be located within the area covered by the plan and needed to support the land uses described in the plan. c. Standards and criteria by which development will proceed, and standards for the conservation, development, and utilization of natural resources, where applicable. d. A program of implementation measures including regulations, programs, public works projects and financing measures necessary to carry out paragraphs (1), (2), and (3).

B. The specific plan shall include a statement of the relationship of the specific plan to the general plan. Section provides that the specific plan may address any other subjects which the planning agency determines are desirable to implement the General Plan.

2.2 Scope and Purpose of the Specific Plan The Mendocino Indian Reserve Specific Plan covers TBD gross acres (of 24,903 net acres) of the Mendocino Indian Reserve. This plan is being developed according to the Guidelines for Specific Plans from the Office of Planning and Research and Tribal Nations of Ft Wright Planning requirements. The overall purpose of the Mendocino Indian Reserve Specific Plan is to facilitate comprehensive planning to result in the valuable development of this site through the establishment of a comprehensive and coordinated planning program that is consistent with the Tribal Nations of Ft Wright General Plan and the Tribal Council General Plan. This specific plan also recognizes the opportunities and constraints inherent in the subject property, (and location), creating an overall approach to development that adds significant benefit to the City and capitalizes on the available potential of the subject property. The Mendocino Indian Reserve Specific Plan is a regulatory document that once adopted, will serve as the specific overlay for the Tribes Nations General Plan as well as the Tribal Council's General Plan for development of Tribal Lands, Zoning Ordinance, Development Code and Design Guidelines for the Plan Area.

## Introduction continued...

1.2 Plan Document Organizational Overview All Plans will adhere to the following structure: • Plan Summary • Planning Discussion • Specific Plan – Land Use Planning and Regulatory Provisions • Design Guidelines and Development Standards • Infrastructure Plans – As Needed • Program of Implementation Measures • Relationship of the Specific Plan’s Environmental Document to Subsequent Discretionary Projects • Specific Plan Administration • Specific Plan Enforcement

1.3 Planning Area Description: Issues & Objectives Issues / Objectives (TBD)

1.4 Project Setting Insert Figures to show the multiple site settings to illustrate site(s) and settings. Add additional Parcel Maps as necessary.

1.5 Project History History of current land usage and what land use applications will be applied.

1.6 Project Summary of Preparation Process The Mendocino Indian Reserve Specific Plan is the result of careful planning and analysis undertaken by the property owners to provide the guidelines which will allow for a development that complies with the intent of the Governing Council.

1.7 Summary of the Implementation Program Standards & Criteria by Which the Development Will Proceed:

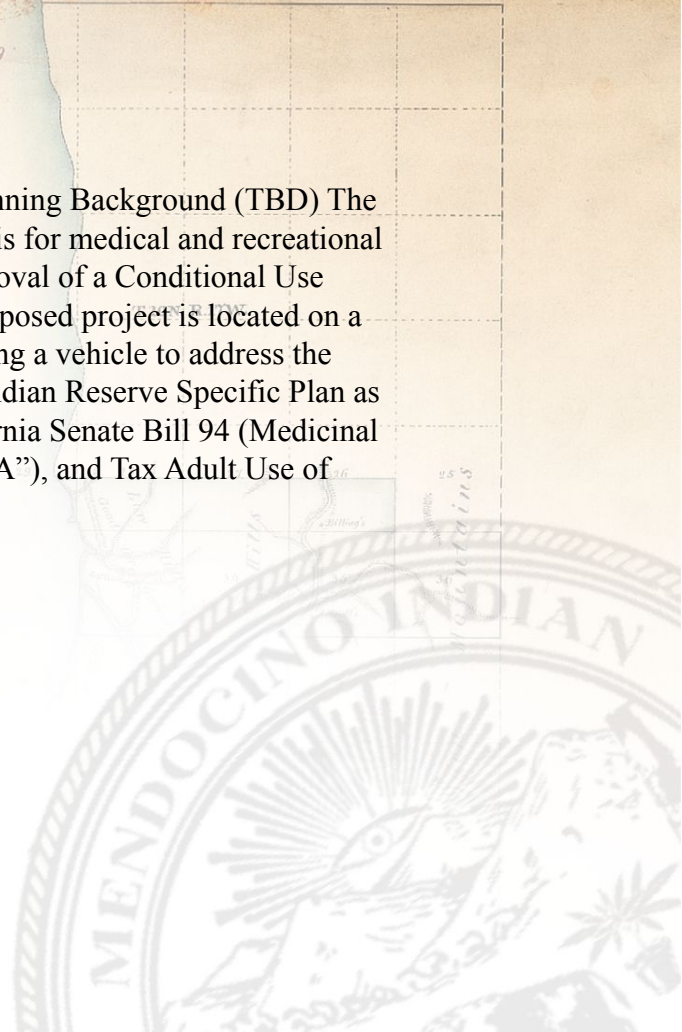

## Master Project Plan 9 1.3

*Recd. U.S. Gen. L. Office of May 12, 1869*

Specific Plan Purpose, Issues, Objectives & Goals Purpose / Planning Background (TBD) The Mendocino Indian Reserve Council allows cultivation of cannabis for medical and recreational use within Certain Industrial Districts or Zones. Zones with approval of a Conditional Use Permit (CUP) and Medical Cannabis Regulatory Permit. The proposed project is located on a qualifying Light Industrial (LI) zoned site. In addition to providing a vehicle to address the provisions of the Reserve's Cannabis Program, the Mendocino Indian Reserve Specific Plan as proposed, addresses the implementation of the following: California Senate Bill 94 (Medicinal and Adult-Use Cannabis Regulation and Safety Act; "MAUCRSA"), and Tax Adult Use of Marijuana Act ("AUMA" aka Proposition 64).

# Master Project Plan 10 2.0

## Planning for Cannabis Cultivation

2.1 Regulatory Authority Tribal Government provides authority to cities to prepare Specific Plans for the systematic implementation of the General Plan for the following: A. A specific plan shall include a text and a diagram or diagrams which specify all of the following in detail: a. The distribution, location, and extent of the uses of land, including open space within the area covered by the plan. b. The proposed distribution, location, extent and intensity of major components of public and private transportation, sewage, water, drainage, solid waste disposal, energy, and other essential facilities proposed to be located within the area covered by the plan and needed to support the land uses described in the plan. c. Standards and criteria by which development will proceed, and standards for the conservation, development, and utilization of natural resources, where applicable. d. A program of implementation measures including regulations, programs, public works projects and financing measures necessary to carry out paragraphs (1), (2), and (3). B. The specific plan shall include a statement of the relationship of the specific plan to the general plan. Section provides that the specific plan may address any other subjects which the planning agency determines are desirable to implement the General Plan.

2.2 Scope and Purpose of the Specific Plan The Mendocino Indian Reserve Specific Plan covers TBD gross acres (of 24,903 net acres) of the Mendocino Indian Reserve. This plan is being developed according to the Guidelines for Specific Plans from the Office of Planning and Research and Tribal Nations of Ft Wright Planning requirements. The overall purpose of the Mendocino Indian Reserve Specific Plan is to facilitate comprehensive planning to result in the valuable development of this site through the establishment of a comprehensive and coordinated planning program that is consistent with the Tribal Nations of Ft Wright General Plan and the Tribal Council General Plan.

# Master Project Plan 11

The adopted Plan will incorporate by reference the City of Ft Wright General Plan making it consistent with and an extension of that document. Future development and use must be found to be consistent with the adopted Specific Plan and any subsequent amendments. This Specific Plan is intended to allow some flexibility in its requirements. Should an applicant have a unique idea, design, or other situation related to only the following

1) heights, 2) setbacks, 3) screening or 4) parking requirements that renders the strict application of the Specific Plan infeasible, the applicant may apply to the Planning Commission for approval of their project/structure. The consideration of the application by the Planning Commission need not be a public hearing. The Planning Commission's determination of the application shall be discretionary and up to the Planning Commission.

2.3 Relationship to the Tribal Nations of Ft Wright General Plan California Planning Law requires that Specific Plans maintain consistency with the adopted General Plan. The Specific Plan has been created using the goals and policies of the General Plan as a basis, with additional standards and site-specific conditions added for refinement. Consistency is commonly demonstrated through the statement of the Specific Plan to the General Plan or through a discussion of the individual policies and programs and how each implements the General Plan. Zoning, subdivision, and public works projects must also be consistent with both the General Plan and with the Specific Plan. The official California Attorney General position defines consistency as meaning "agreement with, and harmonious with". The Mendocino Indian Reserve Specific Plan provides for a General Plan consistency analysis of this Specific Plan.

## Master Project Plan 11

2.4 General Plan Elements / Policies Land Use the Plan currently designates the Project site as “Light Industrial”. The proposed Project includes land uses beyond those set forth in the “Light Industrial” designation. The proposed use includes Industrial Park, tourist and retail commercial, on-site residential-security, on-site power generation, onsite water storage reservoir, onsite agricultural crop production (agricultural, vegetable, herb, date & citrus groves), and industrial distribution & support uses. The proposed mixed-use development is best addressed with a Specific Plan zoning overlay. See Land Use Plan Figures and Tables in this document. Circulation Adequate circulation facilities exist, are under construction, or will be constructed as part of the proposed Project to serve the surrounding area and the Project. The proposed Project complies with all other applicable circulation policies of the General Plan. Update with Traffic Studies and Requirements Housing The proposed Project does include on-site security housing in support of the industrial park. On-site security personnel will be headquartered in a Security Operations Center facility, which will have “bunk-house” areas for off-duty guards to reside on the premises while they are “on-call”. The housing component can be thought of just like a Fire Station, where firefighters live while they are on call. On-site Security Team housing is important to ensure that additional off-duty security personnel are readily available.
